🌿 Our pedagogy focuses around the learner as the leader and finding joy in the journey. And every day is a different adventure together learning about ourselves, and our world!

🌲 Curriculum follows our school's curriculum wheel, designed with seasons, indigenous knowledge and cultural celebrations in mind, using a blend of play-based, Montessori, Waldorf and Reggio Emilia approaches.

☀️ Students are met where they are academically and socially and given a structure to build goals, projects and milestones in an outdoor and community setting.

🌈 Family involvement is encouraged and we hold many events and community projects to weave what our students are learning into their at home activities and to show off their work and development.
